**BRETTFORD INTEGRATES TECHNOLOGY AND FLEXIBILITY INTO MEETING AND TRAINING ENVIRONMENTS SO BUSINESSES AND EDUCATORS CAN DO MORE WITH LESS**

**CHICAGO** — Meeting and training environments are evolving beyond a few foldaway chairs and a marker board yet many organizations lack dedicated conference space to accommodate gatherings riddled with laptops and multimedia presentations. Chicago-based furniture manufacturer Bretford addresses the demand for flexibility and technology integration with the introduction of Grid Conference and Training. When combined with Bretford's proprietary Liquid™ Power & Data system, employers and trainers can make room changes on the fly while hiding equipment and stowing unsightly power and data cables.

Grid Training Tables offer sweeping geometric shapes and crisp details combine to create a light, classic aesthetic. Grid worksurfaces provide a high level of ergonomic comfort and flexibility through freestanding, height-adjustable tables and workstations to help users reduce fatigue and to help avoid muscular skeletal disorders like carpal tunnel syndrome. Supported by C-legs on glides or casters, Grid Training Tables can be rearranged quickly and easily to create conference and training environments tailored to the size and mission of each meeting.

At times, technology is less of a tool than it is a visual obstruction. Grid Training Tables can be outfitted with SmartDeck technology. At the flip of a lever, SmartDeck cradles flat screen monitors and allows users to tuck their computer, keyboard, and mouse into the table and out of the way.

The cost-effective and easy-to-install Liquid Power & Data provides smarter cable management, higher densities, and limitless configuration possibilities by routing all cables well below the level of the tables through Channels to Substations, which serve as central power and data hubs.

Grid Conference and Training Tables, SmartDeck, and Liquid Power & Data will be displayed at NeoCon June 14 – 16 in Bretford's Chicago showroom located on the 10<sup>th</sup> floor of the Merchandise Mart in Suite 1080. For more information, visit [www.bretford.com](http://www.bretford.com).
