

BUILT TO PROTECT

ANTIMICROBIAL
PRODUCT SOLUTIONS BY BRETTFORD

INTRODUCING...THE FIRST MULTI-SURFACE ANTIMICROBIAL CARTS
FOR LEARNING AND TRAINING ENVIRONMENTS

IMAGINE IF...

all the cart surfaces in schools, offices and hospitals were protected from the growth of bacteria odors, mold, mildew, and fungus that can build up and cause unclean surfaces. Bretford Manufacturing, Inc. is the **first to introduce multi-surface antimicrobial finishes** on more than **30 different carts** for **learning and training environments**. These finishes are intended to inhibit the growth of mold, mildew and fungus on the product's surface. With **Bretford's Antimicrobial Product Solutions**, the technology is built into the product during the manufacturing process and becomes an intrinsic part of the product's surface.

GET MORE FIGHT IN THE FINISH

ANTIMICROBIAL
PRODUCT SOLUTIONS BY BRET福德

Bretford's protective antimicrobial surface finishes are coated onto **more than 30 Bretford carts** to **inhibit the growth of mold, mildew and fungus on the products' surface**. With the built-in addition of the Antimicrobial, Bretford products are **cleaner for schools, offices and hospitals**.

How does the antimicrobial technology work?

When exposed to moisture, silver ions are gradually released from the powder coating which contains the antimicrobial agent. The positively charged silver exhibits toxicity to microbes at a very low concentration. Silver ions react with a wide range of molecular processes within microorganisms to inactivate critical physiological functions. The spectrum of silver's antimicrobial activity is very wide resulting in a low probability of microbial resistance development.

Antimicrobial technology is already fighting microorganisms in the **medical industry** on the surfaces of beds, flooring and medical devices. Those in **agriculture** and **marine environments** depend on antimicrobial technology to control mold and mildew. **Public spaces** are being protected on bacteria transfer points, such as bathroom fixtures, touch screens and other **multi-touch surfaces** like carpet and credit cards.

Incorporating Bretford's Antimicrobial products in your school, office or hospital means you have a **naturally clean surface to learn or work** without using harsh disinfectants. Because the antimicrobial properties are built right into the product finish, the protection of that finish is **continuously maintained**.

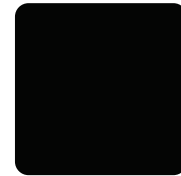

THE FINISH LINE IN PROTECTION

There's no need to sacrifice form for function. Bretford's Antimicrobial Product Solutions are available on a broad line of carts.

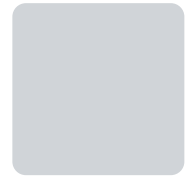

PAINT COLOR OPTIONS:

Anthracite (-AN)

Black Pumice (-BP)

Concrete (-CT)

CARTS

LAPTOP CARTS

Model #	Description
LAPTG15ESA-CTMBT	15-unit laptop cart with electrical, concrete
LAPTG15SA-CTMBT	15-unit laptop cart, concrete
LAP18EULBA-CTMBT	18-unit UL-listed laptop cart with electrical in the back, concrete
LAP18EULFR-CTMBT	18-unit UL-listed laptop cart with electrical in the front, concrete
LAP24EULBA-CTMBT	24-unit UL-listed laptop cart with electrical in the back, concrete
LAP24EULFR-CTMBT	24-unit UL-listed laptop cart with electrical in the front, concrete
LAP30EULBA-CTMBT	30-unit UL-listed laptop cart with electrical in the back, concrete
LAP30EULFR-CTMBT	30-unit UL-listed laptop cart with electrical in the front, concrete
NETBOOK32-ANMBT	32-unit micro laptop cart with electrical in the back, anthracite

PRESENTER'S ASSISTANT FOR LEARNING PROJECTOR CARTS

Model #	Description
TCPUL23-CTMBT	PAL presenter's assistant for learning projector cart with 4" twin wheel casters, concrete
TCPUL23-BPMBT	PAL presenter's assistant for learning projector cart with 4" twin wheel casters, black pumice
TCPUL23FF-CTMBT	PAL presenter's assistant for learning projector cart with 10-outlet electric, 4" twin wheel casters, concrete
TCPUL23FF-BPMBT	PAL presenter's assistant for learning projector cart with 10-outlet electric, 4" twin wheel casters, black pumice
TCP23-CTMBT	PAL presenter's assistant for learning projector cart with 4" hard rubber casters, concrete
TCP23-BPMBT	PAL presenter's assistant for learning projector cart with 4" hard rubber casters, black pumice

Note: All references to bacteria odor, mold, mildew and fungi are defined as non-public health microorganisms.

PRESENTER'S ASSISTANT FOR LEARNING PROJECTOR CARTS (CONTINUED)

Model #	Description
TCP23FF-CTMBT	PAL presenter's assistant for learning projector cart with 10-outlet electric, 4" hard rubber casters, concrete
TCP23FF-BPMBT	PAL presenter's assistant for learning projector cart with 10-outlet electric, 4" hard rubber casters, black pumice

ECILS SERIES CARTS

Model #	Description
ECILS1-CTMBT	mobile projector cart, 32"W x 24"D x 42"H, concrete
ECILS1-BPMBT	mobile projector cart, 32"W x 24"D x 42"H, black pumice
ECILS1FF-CTMBT	mobile projector cart with 4-outlet electric, 32"W x 24"D x 42"H, concrete
ECILS1FF-BPMBT	mobile projector cart with 4-outlet electric, 32"W x 24"D x 42"H, black pumice
ECILS2-CTMBT	mobile projector cart, 24"W x 18"D x 42"H, concrete
ECILS2-BPMBT	mobile projector cart, 24"W x 18"D x 42"H, black pumice
ECILS2M-CTMBT	mobile projector cart with 3-outlet electric, 24"W x 18"D x 42"H, concrete
ECILS2M-BPMBT	mobile projector cart with 3-outlet electric, 24"W x 18"D x 42"H, black pumice
ECILS3-CTMBT	mobile projector cart, 32 ^{1/4} "W x 24 ^{1/4} "D x 31 ^{1/4} " - 39 ^{1/4} "H, concrete
ECILS3-BPMBT	mobile projector cart, 32 ^{1/4} "W x 24 ^{1/4} "D x 31 ^{1/4} " - 39 ^{1/4} "H, black pumice
ECILS3FF-CTMBT	mobile projector cart with 10-outlet electric, 32 ^{1/4} "W x 24 ^{1/4} "D x 31 ^{1/4} " - 39 ^{1/4} "H, concrete
ECILS3FF-BPMBT	mobile projector cart with 10-outlet electric, 32 ^{1/4} "W x 24 ^{1/4} "D x 31 ^{1/4} " - 39 ^{1/4} "H, black pumice
ECILS15-CTMBT	mobile projector cart, 32"W x 24"D x 33"H, concrete
ECILS15-BPMBT	mobile projector cart, 32"W x 24"D x 33"H, black pumice
ECILS15FF-CTMBT	mobile projector cart with 4-outlet electric, 32"W x 24"D x 33"H, concrete
ECILS15FF-BPMBT	mobile projector cart with 4-outlet electric, 32"W x 24"D x 33"H, black pumice
