

FLAT PANEL WIDE BODY CARTS

UL 1667 LISTED TO SCHOOL STANDARDS

Specifically designed for use in schools, institutions and hospitals where children are present.

UL 1667 Certified // Stability and load tested by Underwriter Laboratories to 1667 standards for tall carts used in areas where children are present. Certified for the U.S. and Canadian markets.

Quality Guaranteed // Bretford carts are built to last and manufactured to the highest quality standards. UL listed carts are subject to random factory inspections by UL to ensure additional quality control. So the cart we make today is identical to one we'll make 5 years from now.

Universal Mounting Bracket // Flat panel mounting brackets are adjustable to fit the unique hole pattern on the back of your monitor up to 700mm wide by 400mm tall. Monitors may be set at a 0°, 7.5° or 15° forward tilt for best viewing angle.

Power // Carts are available with a 2-outlet or 3-outlet electrical unit with 20 foot power cord and built in cord winder that will allow you to position the monitor anywhere in the room.

Secure // Bretford carts provide a stable platform for your flat panel monitor, mounting it to the structure of the cart. Includes security hardware to deter theft and provide peace of mind.

Simple Mobility // Carts feature industrial grade casters and a top shelf handle that make it easier to push from one location to another. Fixed front casters control the direction of travel to deter sideways motion that can lead to a tip over.

Environmentally Friendly // Carts are constructed using an average 30% post-consumer recycled steel and finished in reclaimable powder paint that eliminate harmful VOC's. All Bretford carts are made in the USA, reducing their carbon footprint, and 100% recyclable at the end of the product life cycle.

Base Model	Description	Max Monitor Wt.	Sugg. Monitor Size
FPBBUL32	32"W x 27-1/2"D, Open Shelf	65 lbs.	30"-42" Flat Panel
