

WIDE BODY CART FLAT PANEL RETROFIT REUSE YOUR OLD BRETTFORD TV CARTS!

Turn your
old TV cart

Into a new
flat panel cart

Smart // Converts the wide body carts you already own for safe and secure use with flat panel monitors by replacing the top shelf and providing a mount. There are no holes to drill, just bolt it on and go!

Economical Solution // Less expensive than buying a new cart since you are just replacing the top shelf of your old one. You save on the purchase price, shipping and installation costs.

Thinking Green // **REDUCE:** Retrofit kits require less material to construct and are made in the USA so they ultimately use less energy to ship. **REUSE:** Your old carts get a brand new life so less goes into the trash. **RECYCLE:** The old top shelf is 100% steel and easily recycled. Retrofit kits are constructed using an average 30% post-consumer recycled steel and finished in reclaimable powder paint that eliminate harmful VOC's.

UL Approved Accessory // UL listed retrofit kits are available for your old wide body carts that originally came with a UL 1667 listing. Carts continue to be UL listed!

Universal Mounting Bracket // Flat panel mounting brackets are adjustable to fit the unique hole pattern on the back of your monitor up to 700mm wide by 400mm tall. Monitors may be set at a 0°, 7.5° or 15° forward tilt for best viewing angle.

Easier Mobility // Retrofit kits include a top shelf handle that make it easier to push from one location to another and provide additional room to walk behind the cart.

RETROFIT KITS FOR WIDE BODY CARTS
