

WHY CHOOSE BRETTFORD'S QUATTRO STUDENT DESKS?

Smart

Quattro student desks are available with glides or a glide/caster combination for easy reconfiguration into student groups. Desks are sized for up to three students, allowing you to lower your cost per student.

Multiple Finish Options

Quattro student desks are available in three standard finishes or special order in any combination of Bretford paint, laminate, and trim colors to enhance your decor. A complete list of finishes are available at www.bretford.com, search words "Quattro student."

Accommodating

Each desk includes two book bag hooks that are arc-welded to the frame and keep aisles clear of bags, and a height adjustable work surface from 24" to 32" in 1" increments for use by students or adults. Optional 4" high book box mounts under the work surface for added storage space.

Ease of Installation

Quattro desks are simple to assemble and can be boxed individually or bulk packed to allow entire classrooms to be packaged and shipped together and minimize carton waste.

Quality Construction

Legs mount into 12-gauge steel posts which are tied together by a steel skirt running the diameter of the top. A hex/tie bolt assembly locks the legs in place and an arc-welded cross bar runs front to back for added stability. The 1" thick work surface is durable and light weight with a PVC edge attached along the entire perimeter so it won't pull out. Quattro desks meet or exceed ANSI/BIFMA safety and quality standards and are one of the strongest, most durable desks on the market.

Kid Friendly

Quattro student desks feature snag free rounded edges and inset leg lock screws with rounded crowns that will not hook clothing. Book bag hooks keep back packs off the floor where they can be tripped over.

Warranty

Quattro desks are covered for 12-years against defects.

Think Green

Steel base contains an average of 30% post-consumer recycled steel and are finished in an environmentally friendly powder paint. The work surface substrate contains an average of 70% recycled content.

Made in the United States

Quattro desks are manufactured at Bretford's Chicago area factory using union labor.
