

# COMPUTER LAB ON WHEELS

TRANSFORM ANY CLASSROOM  
INTO A COMPUTER LAB WITH  
BRETTFORD'S LAPTOP CARTS.

Eliminate your need for a dedicated computer lab and equip teachers with the convenience of a **mobile charging** and **storage unit** for 15, 18, 20, 24, or 30 laptops, or for 32 netbook/micro computers. Bretford is the industry leader in laptop cart technology and with **UL Certification**, we're the safest option. Take your computer lab anywhere.

# LAPTOP CARTS

## 15-UNIT

Ideal for  Learning Solutions.

Our 15-Unit Laptop Carts feature removable dividers that allow for vertical storage of up to fifteen laptop computers. Features surge and overload-protected 15-outlet electrical unit, 5" casters (two locking), and individual cord holders for each laptop. Includes a grommet hole at the back of the unit for cords. Rear panel opens to allow access to the electrical unit. TUV Certified to conform with UL 60950 standards for Safety of Informational Technology. Available in Grey Mist powder paint finish.

★ Computers can be charged, stored, secured and easily transported between classrooms or even across campuses.

# LAPTOP CARTS 18-UNIT

Ideal for  Learning Solutions.

Our 18-Unit Laptop Carts store and charge up to eighteen laptop computers and feature two surge and overload-protected 9-outlet electrical units that install inside the front or rear of carts. Includes a 3-outlet electrical unit attached to the back for powering additional equipment. A grommet hole at the back of unit provides cord management and access to electrical units. Perforated doors and rear and side panels allow for ventilation of equipment when charging. All carts have been TUV Certified to conform with UL 60950 standards for Safety of Informational Technology. Available in Grey Mist powder paint finish.

LAP18EULBA-GM and LAP18EULFR-GM are TUV and UL Listed.

## LAPTOP CARTS

# 20-UNIT AND 24-UNIT

Ideal for  Learning Solutions.

Our 20-Unit and 24-Unit Laptop Carts store and charge up to twenty-four laptop computers. Top shelf features a non-slip rubber mat and a grommet hole at the back for cord management and electrical unit access. Two surge and overload-protected electrical units are mounted in the front or rear of the cart (10-outlet for the 20-Unit Cart and 14-outlet for the 24-Unit Cart). Perforated doors and rear and side panels allow for ventilation of equipment when charging. All carts have been certified to conform with UL 60950 standards for Safety of Informational Technology. The 20-Unit Cart is available in Concrete powder paint finish. The 24-Unit Cart is available in Grey Mist powder paint finish.

★ *Easily moveable throughout any K-12 school or university building. Even great for a workplace where laptops are shared.*

## ACCESSORIES

### LAPMR2 Automatic Timer

The Automatic Timer allows both laptop cart electrical units to be plugged into the timer and to be powered from a single wall outlet. The timer switches the electrical current from one electrical unit to the other, preventing circuit overload. To avoid tripping of electrical unit breakers, the consistent amperage draw should average 12 amps, with no more than a 15 amperage draw for short periods. The 18, 24, and 30-unit carts require a separate power circuit for each electrical post when the Automatic Timer is not used. Not for use on LAP20ULH or LAP30ULV carts. Timer is resettable and ships standard with a four-hour charging period per electrical unit.

### TGLOCK Resettable Combination Padlock

Features a 40mm laminated steel body with a hardened steel shackle coated in plastic to protect equipment. Replaces original lock on laptop carts. Combination can be reset for multiple combinations.

## LAPTOP CARTS

# 32-UNIT

Ideal for  Learning Solutions.

Our 32-Unit Carts store and charge up to thirty-two netbook computers. Carts feature two shelves with eight compartments each, and have a built-in handle for easy mobility. The 32-outlet UL electrical system includes an Automatic Timer and 16-outlet Charger Unit. A large working surface and an extra 4-outlet power source add support for an extra netbook or printer. Rear grommet hole and cord winders on the side panel allow for cord management and easy access to electrical units. Perforated doors and rear and side panels allow ventilation of equipment when charging. Available in Anthracite powder paint.

★ Easily charge, store, and transport netbook computers in any education environment.

# LAPTOP CARTS 32-UNIT

Ideal for  Learning Solutions.

### NETBOOK32 Micro Computer Laptop Cart

Features steel construction, four 5" swivel casters (two locking). Includes 14-gauge locking point and 40mm resettable combination lock for security. Electrical units, each with on/off switch, mount inside rear of cart. Timer ships standard with a 4-hour charging period per electrical unit and an 8-hour charging time for all netbook/micro computers.

Model #	W x D x H	Wt	Caster Size	Electrical	Netbook Capacity
NETBOOK32	35 1/2" x 21 1/2" x 38 1/8"	135 lbs	5"	Rear	32

See pages 192-195 for special order colors. Additional costs and longer lead times may apply.
