

TELEVISION CARTS

WIDE BODY TV CARTS

GENERAL SPECIFICATIONS

The pyramid design of Bretford's Wide Body TV Carts provides the safety and support you need for large monitors. All carts feature 18-gauge steel tubing, rounded shelf edges, smooth rolling casters and a square locking design for easy assembly. Shelves are constructed from 18-gauge steel with a 20-gauge steel stiffener. Black powder paint finish, with some models available in premium colors for an upcharge. "E" & "M" models include a UL and C-UL Listed, 2- or 3-outlet electrical unit (depending on the model) with 20' extension cord and cord winder.

Bretford uses 25%-35% post-consumer recycled steel in all products that we manufacture.

Bretford was one of the first manufacturer's in the nation to switch from spray-on wet paint, high in VOC's, to electrostatic powder paint, eliminating all VOC's caused by painting.

Bretford uses 25%-35% post-consumer recycled steel in all products that we manufacture.

Bretford uses a recycled solvent cleaning agent on its finishing lines. This same solvent is then recycled and used for a fuel blend.
