

BRETFORD BASICS™

MOBILE COMPUTER WORKSTATION

EC15-PB

Bretford's EC15-PB is designed to be height adjustable to accommodate almost any user. Provides a large work surface and upper shelf for a computer and work space. A built-in electrical unit allows the computer to be easily powered. Workstation rolls easily on casters.

FEATURES

- UL listed utility table for the United States and Canadian markets.
- Ideal for use with shared computers or extra workspace in the classroom, art room, or office. Stores out of the way and easily repositions for use when needed.
- Upper storage shelf is independently height adjustable from 9" to 12" above the work surface.
- Supports flat panel monitors up to 19" diagonal, keyboard with mouse, and flat CPU or use with a laptop computer and is ideal for use with projectors or document cameras.
- Work surface can be set in height from 23" to 27" h at time of assembly for a variety of applications.
- Spacious cord management bin doubles as a modesty panel and organizes all power and data wires out of sight.
- Features a built in surge and overload protected, 3-outlet electrical assembly under the table top and comes with an on/off switch and 20 foot power cord.
- Work surface provides six square feet of workspace.
- Constructed using an average 30% post-consumer recycled steel content and finished in environmentally friendly powder paint. Steel components are 100% recyclable at the end of the product life cycle. Certified to GREENGUARD Children & Schools Indoor Air Quality standards.
- 4" Quiet-Glide casters, two are locking.
- Made in the USA.

MADE IN THE USA

The EC series computer carts are made in Bretford's Chicago area manufacturing facilities using union labor.

UL LISTED

The EC15-PB is a UL Listed utility table for both the United States and Canadian markets.

ENVIRONMENTAL SPECIFICATIONS

EC series computer carts are constructed with "prime" steel which has a 25% to 35% post-consumer recycled content and 100% recyclable at the end of the product life cycle. All steel components are finished in environmentally friendly powder coat paint that eliminates VOC's. Bretford has eliminated the use of chrome plating on EC cart legs in 2005. All EC series carts are certified to GREENGUARD Children & Schools Indoor Air Quality standards.

SUGGESTED SPECIFICATIONS

EC15-PB Mobile Computer Workstation has one (1) 36" w x 24" d, 18-gauge steel work surface and one (1) 36" w x 12" d, 18-gauge steel top shelf. Corners of the shelves open for leg assemblies to pass through. The legs of the Mobile Computer Workstation fit flush to the shelves. Each corner has a 13-gauge steel mounting bracket with 1/4" square head bolts and hex nuts that hold leg securely to the work surface. Legs are 18-gauge, 1" square tubular steel and 22-1/4" long in front and 34-1/4" long in back. Each leg has a hard plastic caster insert mounted in the bottom of the tube. Microcomputer center has one (1) 18-gauge steel, welded "H" frame base assembly that attaches to the front and rear legs. Has one (1) 18-gauge steel cord organizer bin of dimensions 34" w x 10" h x 4-1/2" d overall, 6" h for the rear panel of the bin and is attached between the rear legs so it also serves as a modesty panel. Cord bin has four (4) 5" x 1/4" slots at the top of the back panel and two (2) slots of the same dimensions, one down each side. Has a completely enclosed electrical that has three (3) grounded outlets, on/off switch at the front underside of the work surface, surge protection, and a 20 foot power cord. Casters are mar-resistant, hard black rubber, 4" in diameter. Each caster assembly has ball bearing swivel capabilities and steel construction. Two have locking brakes. Entire workstation is finished in Putty Beige powder paint. Mobile Computer Workstation ships knocked down (KD).
