DIGITAL KIOSK WALL MOUNTS

Digital Kiosk Series space saving computer access stations mount to the wall or other sturdy vertical surface and are ideal for public areas.

NOTE: Metal wall studs are never suitable for mounting equipment to without reinforcement. Always use a professional installer. Warranties are void when improperly installed.

FEATURES

- Mounts to the wall or sturdy vertical structure to provide easy computer access to employees, students or the public. Compact design saves floor space and money by eliminating the need for additional furniture to hold computer equipment and is ideal for use in libraries, health care, student lounges, and office reception areas.
- Keyboard shelf can fold up and out of the way when not in use and locks in the down or folded position. The keyboard clamps into place to eliminate the possibility of falling off and is adjustable to hold keyboards 4-3/4" to 8-1/4" deep. Extends 20-1/2" from the wall when down.
- Pull out mouse shelf can be installed on the left or right side and include a cubby to store the mouse when folded.
- Keyboard shelf and mouse shelf include padded wrist rests for user comfort and improved ergonomic posture.
- VESA compliant monitor arm has tilt and rotation adjustment and supports monitors up to 24", 25 lbs max., with a 75/100mm hole pattern. Monitor features a +/- 45° tilt, 90° left/right pan, and 360° landscape/portrait P/L Rotation. Monitor screen is 9" from the wall.
- FPDK01 features a 31" track to support a monitor, keyboard and mouse. Ideal for use with computers that are connected to a mainframe.
- FPDK02 features a 63" track and includes an adjustable CPU holder for independent computer workstations.
- Aluminum wall track mounts to a single stud and allows the keyboard and monitor to be positioned up or down the track for best height.
