

BRETFORD BASICS™

WIDE BODY CRT STYLE TV CART

BB48-P4, BB48-E4 & BB48-M4

Bretford's open shelf wide-body TV cart has the strength and stability to support large TV monitors of up to 27" diagonal screens. The wide-body design provides an oversized base shelf that lowers the center of gravity and provides greater stability during transport.

Now available with a new and improved 6-outlet power strip!

FEATURES

- Wide-body, pyramid design and steel construction lowers the center of gravity for superior stability with the heaviest CRT style TV monitors up to 27".
- Includes CRDMR Cord Minder clips which snap onto the legs to keep power and data cables neat and can be positioned anywhere on the cart.
- 48" height puts monitor at convenient height for all viewers.
- Top two shelves measure 32"w x 22"d, 10-1/2" between shelves.
- Bottom shelf measures 32"w x 27-1/2"d, 26-1/2" between shelves.
- Recommended for use with up to a 27" diagonal CRT style TV monitor.
- All steel construction with a durable black textured powder paint finish.
- New and improved 6-outlet electrical unit available with built-in cord winder and 20' extension cord. Lets you set up anywhere in the room and still reach an electrical outlet. Electrical units are standard on BB48 "E" and "M" models.
- Optional SBRT safety belt may be added to secure the monitor to the top shelf.
- Electrical units attach to pre-drilled holes on the top or middle shelf.
- 4" stem casters - two locking.
- Grommet hole at rear of top two shelves for cord management.
- Constructed using an average 30% post-consumer recycled steel content and finished in environmentally friendly powder paint. Steel components are 100% recyclable at the end of the product life cycle. Wide Body TV carts are certified to GREENGUARD Children & Schools Indoor Air Quality standards.
- Made in the USA.

DIMENSIONS

Includes CRDMR
Cord Minder Clips

BRETFORD

ENVIRONMENTAL SPECIFICATIONS

Wide body CRT TV carts are constructed with "prime" steel which has a 25% to 35% post-consumer recycled content. All steel components are recyclable at the end of the product life cycle. Wide body carts are certified to GREENGUARD Children & Schools Indoor Air Quality standards.

ELECTRICAL UNIT SPECIFICATIONS

Optional electrical assembly has six (6) grounded outlets that feature surge and overload protection, 20 ft. 3-wire cord and two (2) 3/16" diameter machine screws with wing nuts for attaching unit to top or middle shelf. Electrical unit is included with all "E" and "M" models.

SUGGESTED SPECIFICATIONS

BB48 Series Wide-Body TV cart has two (2) 18-gauge steel 32" w x 22" d shelves and one (1) 18-gauge 32" w x 27-1/2" d shelf (to be used as the bottom or base of the cart). Each 32" w x 22" d shelf has a 2" diameter grommet hole located at the center and near the back edge. Shelves are press formed with a 1/8" lip bordering the top surface on all four (4) sides. Table legs fit flush to the shelves. Each corner has 13-gauge steel mounting brackets with 1/4" square head bolts and hex nuts that tighten to hold leg securely to table. The two (2) 32" w x 22" d shelves have two (2) 3/16" diameter holes centered on both the right side and the left side to accept an optional electrical assembly. Electrical unit is standard on the BB48-E4 and BB48-M4 carts. Top two shelves have a grommet hole in rear for cord management. Legs of table are 18-gauge 1" square tubular steel. Each leg measures 49-1/2" in length and are tapered so the top part fastens to a 32" w x 22" d shelf, and the bottom of the leg fastens to a 32" w x 27-1/2" d base shelf. Each cart includes a pack of CRDMR Cord Minder clips that snap onto the legs and keeps power and data cables neat and out of the way. The table stands 48" h from the floor (including the 4" casters). Leg has hard plastic caster insert mounted in the bottom of the tube. Each leg has hard plastic cap details inserted into the top and bottom of the tube. Casters are mar resistant hard black rubber and measuring 4" in diameter. Casters have ball bearing swivel capabilities and steel construction, two with locking brakes. Constructed using "prime" steel which has a 25% to 35% post-consumer recycled content and finished in a durable and environmentally friendly black powder paint. BB48 Wide-Body TV cart ships knocked down and is available to ship via UPS.
