

A HIGHER FORM OF FUNCTION

BRETFORD

PRESENTATION ENVIRONMENTS® BOAT SHAPE CONFERENCE TABLE

- ▶ The award winning Powered Conference Table not only meets the needs of large meeting rooms, but also has optional power and data access to operate computer and presentation equipment during meetings.

PN0412C Boat Shape Conference Table / 48" d x 120" l x 29" h. (122 x 305 x 74cm) / Natural Cherry Veneer and Twilight powder paint.

PRESENTATION ENVIRONMENTS® BOAT SHAPE CONFERENCE TABLE

KEY FEATURES

Powered Conference table was awarded the NeoCon 1997 "Silver Award".
Tables with flip-up doors provide easy access to power and data.
A two-door table provides up to eight power and data ports; a four-foot table provides up to 16.
Data and power are housed in separate raceways to reduce the chance of electro-magnetic interference. Meets Category 5 requirements.
When equipped with a Bretford power solution (hardwire or softwire), 4 power outlets and 4 data ports are located under each power door.

DIMENSIONS

WIDTHS AVAILABLE

36"/48", 42"/54" (92/122, 107/137cm)

LENGTHS AVAILABLE

96", 120", 144", 168", 192", 240"
(244, 305, 366, 427, 488, 610cm)

HEIGHT

29"h (74cm)

LEG POWER CHANNEL

1¹/₄"d x 3"w (3 x 91cm)

POWER CHANNEL

6³/₈"d x 6"w (16 x 15cm)

CONSTRUCTION

TOP

Top is constructed with 1" (3cm) thick laminate or veneer. Laminate top edge is 3mm PVC. Veneer top edge is 3mm hardwood.

BASE

Structural components are constructed with 14-gauge steel. All other metal pieces are made with 18-gauge steel.

POWER CHANNEL

The power channel provides a separate raceway for data which reduces any electromagnetic interference from AC power circuits.

POWER CAPABILITIES

Hardwire or softwire components are UL-Listed and manufactured in accordance with National Electric Code Requirements. Electronic components are sold separately.

Tables with flip-up doors provide easy access to power and data. The raceway meets category 5 requirements.

Legs feature cord management raceways for either hardwire or softwire solutions.
